## SKILLS, INTERESTS & PROJECTS

---

- **Skills:** Latest web tech (HTML5, CSS3), vanilla JavaScript (Node, Express, Vue, Nuxt, jQuery) with latest ES standards, CSS (Sass, Less, PostCSS, TailwindCss, Responsive Design, Bootstrap, Material Design), PHP

(Laravel, Codeigniter, CakePHP), databases (MySQL, SQLite, MongoDB), system design patterns (MVC, MVVM, Flux), deep and profound knowledge of OOP principles, Git, Agile work methodologies, basic linux terminal knowledge.

- **Interests:** Reading, traveling, meeting new people, and exploring new cultures, learning new technologies, preserving the environment and help fight climate change.
  - **Projects:** [BooksiCMS](#) - Property, and Vacation Management System.
- 

I am committed and ambitious professional that can quickly assimilate new ideas and concepts and demonstrate a logical and analytical approach to solving complex problems and issues. I am able to analyze code and engineer well-researched, cost-effective and responsive solutions. I manage all aspects of the web development cycle, from concept to requirements definition, design, development, launch, maintenance and user support. I am very communicative and have a good sense of humor. I value honesty, integrity, appreciation, compassion, and empathy.
